1. On pages 1 and 2 of my testimony in your investigation of the John Davies matter, I stated that I had been informed that the McCarran Committee had learned of [] name from John Davies. I discussed this matter further with Mr. Morris, Subcommittee Counsel, on 28 June, after reading Mr. Davies' testimony and learning that it did not include any reference to Mr. [] by name. Mr. Morris then informed me that perhaps he had not learned of [] name from Davies, but in all probability had seen it in the file from which he had received [] original affidavit to the FBI. In any event, Mr. Morris stated that he knew [] name prior to questioning [] in Executive Session on 15 February and that he had not gotten [] name from me.

2. In view of this latter information which corrects my understanding of previous conversations with Mr. Morris, I wish to correct my testimony to the extent indicated above.
